

Special Notice:

Aluminum Mullion Discontinued on StormBreaker 300VL Products

The aluminum mullion is no longer available to order through EPOPS. The Dade NOA on this mullion has been discontinued and we will not be seeking re-certification. Customers should order the large impact reinforced or medium reinforced vinyl mullion as a replacement.

Dade Re-certifications Not Being Renewed on StormBreaker® 100VL NOAs

Miami-Dade Notices of Acceptance (NOA) for the Simonton StormBreaker 100VL coastal product line will not be renewed. The product line will continue to have the Florida Building Code (FBC) Approval number, but will not be Dade or HVHZ certified. The 100VL products that will not be renewed under Dade include:

- | | | |
|---------------|---------------------|--------------------|
| • Double Hung | Dade NOA 03-813.05 | Expired 10/07/2009 |
| • Picture | Dade NOA 03-0811.03 | Expired 02/26/2009 |
| • Awning | Dade NOA 03-0827.09 | Expires 5/26/2010 |
| • Casement | Dade NOA 03-0903.03 | Expires 11/10/2010 |
| • Slider | Dade NOA 03-082203 | Expires 10/10/2010 |

NOTE: All 100VL products are still available with an FBC product approval number and can be sold outside the High Velocity Hurricane Zone.

Larger Sizes Now Available in Hexagon and Octagon Geometric Windows

Larger sizes in Hexagon and Octagon geometric windows in the StormBreaker® 100VL non-impact product line are now available to order through EPOPS. New maximum sizes are as follows: Octagons (up to 137 UI) and Hexagons (up to 137 UI).
