Brickmould Series

The best wood window just happens to be made of vinyl.
When it comes to beauty, there’s just nothing quite like wood. And when it comes to performance, there’s nothing quite like vinyl. Until now. Simonton ProFinish® Brickmould vinyl windows and doors offer the best of both worlds. They combine the classic style and proportions of wood windows with the durability, thermal efficiency and ease of maintenance only vinyl is known for. ProFinish Brickmould provides the one thing you want in a window for your new home—everything.

Tradition meets innovation.

Simonton ProFinish®
New Construction Windows and Doors
The Brickmould 600 Difference.
The Brickmould 600 series combines the beauty of wood with all the advantages of vinyl. From a richly detailed, multi-tiered profile, to a broad Flat Casing surround, their stance and stature suggest the classic appearance of a wood window. But unlike wood, Brickmould 600 vinyl windows will never require sanding or repainting to look beautiful for years to come. And the Brickmould 600 series is backed by a great warranty. This **Lifetime Limited Warranty** is transferrable to a subsequent homeowner, and covers the vinyl, hardware, screen and glass for your absolute peace of mind.

**Simulated Divided Lites** provide the appearance of separate panes of glass.

Available **light** or **dark woodgrain** interiors create a rich, warm appearance.

An optional **Flat Casing** surround simulates the look of a traditional wood window.

At Simonton, we take a very progressive approach to saving energy. It’s about much more than saving money. Conserving natural resources, helping keep your energy costs affordable and making your home comfortable are all reasons why your windows and doors should be as energy-efficient as possible. That’s why ProFinish Brickmould 600 windows and doors are designed for superior thermal performance.

Classic styling meets progressive energy efficiency.

What makes **Brickmould 600** windows and doors so energy-efficient?

**Premium Vinyl Construction**

The premium vinyl used to craft Brickmould 600 windows and doors is an excellent insulator. Its thermal properties are far superior to aluminum, steel and stainless steel. Multiple sealed air chambers in the profile provide increased insulation.

**Advanced Spacer Systems**

The **Intercept® Spacer System**, standard on Brickmould 600 windows and doors, features a unique U-channel design that minimizes condensation and keeps glass surfaces warmer for increased efficiency and comfort. The U-shape design flexes and contracts, helping to reduce seal failure in the insulating glass unit.

For even greater thermal performance and dependability, the optional **Supercept™** spacer combines a U-channel design with the strength of a stainless steel alloy.
In winter, Low E helps retain warmed air.

In summer, Low E deflects heat.

As an ENERGY STAR® partner, Simonton Windows® understands that smart choices can help reduce heating and cooling costs and conserve energy. By choosing a regionally specific Simonton ENERGY STAR® glass package, you’ll know you’re getting optimal thermal performance wherever you live.

**Low E Glass**

*ProSolar® Low E glass, with Argon gas* is standard on Brickmould 600 windows.

**INSULATING GLASS UNIT**

*The Glass*  
The *Gas*  
The *Spacer*

**ProSolar® Shade** is an advanced, spectrally selective glass that features a unique formula for maximum insulation. This impressive glass offers the ultimate in solar heat control, fading protection, visibility and energy savings.
Create your **Brickmould 600** window.

1 Select your **operating style**.

**Anything is possible.**

Simonton ProFinish® Brickmould 600 windows are the perfect way to realize the vision you have for your home. With Brickmould 600, you can select the style that will best complement your home and living spaces.
Different Brickmould 600 operating styles can be mulled together for virtually unlimited configurations. Start with a Double Hung, the ultimate expression of classic style. Consider a breathtaking wall of windows. Maybe an exciting geometric shape will make the perfect accent. Whatever your vision, with Brickmould 600, anything is possible.

Virtually Unlimited Configurations.

The optional Flat Casing surround suggests the appearance of a traditional wood window.

The Colonial Casement features a faux meeting rail, so it provides the appearance of a Double Hung window, but it functions like a Casement window.
Dream in color.

When choosing windows for your dream home, why not dream in color? Decorum® by Simonton, available on Brickmould 600 series, is a portfolio of styling options that allows you to create a look that is distinctly yours. Choose from vibrant exterior colors, hardware cast in lustrous metal finishes and unique glass and grid options to give your home truly custom appeal.

Custom Exterior Colors

Choose a color that complements your home’s trim. Or, select a color that provides a striking contrast.

- Brick
- Bronze
- Chocolate
- Cream
- Driftwood
- Pine
- Tan

Flat casing trim can be ordered with the same or a complementary exterior coating as the window.
Custom Hardware Finishes

With Decorum metal hardware finishes, you can complement other fixtures in your home.

- Brushed Nickel
- Oil-rubbed Bronze
- Polished Brass

Interior Colors

Light or dark woodgrain interiors provide a rich, warm appearance. A white interior is standard, while Driftwood and woodgrain are options.

*Exterior colors are not available with a Driftwood interior.
Choose your glass and grid options.

The right grid design can really accentuate the architectural style of your home. Choose from flat or sculptured grids, or Simulated Divided Lites that provide the appearance of separate panes of glass. A host of grid patterns makes it easy to create a custom look.

Between-the-glass Grids

5/8" Flat  3/4" Sculptured  1" Sculptured  Brass

Simulated Divided Lites

Crafted of durable PVC, Simulated Divided Lites are located on the interior and exterior of the home and provide the appearance and dimension of individual panes of glass.

Glass Options

Gray Tint (Energy Efficiency)  Bronze Tint (Energy Efficiency)

Obscure (Privacy)  Tempered (Safety)

The easy-to-use, child-resistant Window Opening Control Device (WOCD) is optional on Brickmould 600 Double Hung windows. The WOCD is a self-activating vent latch that limits the extent a window can be opened. It helps increase safety against accidental falls, while allowing quick egress in the event of an emergency.

SafePoint™ Impact-resistant Glass

Glass options are available for privacy, safety, increased energy efficiency, or just to add a stylish touch.
Grid Patterns

- Colonial
- Diamond*
- Prairie
- Double Prairie
- Perimeter
- Double Perimeter
- Victorian†

*Not available in Simulated Divided Lites. Available only in flat grid style.
Now that you’ve selected the perfect windows, may we suggest the perfect patio door? The Brickmould 600 Patio Door was created to beautifully complement 600 series windows. The unmistakable multi-tiered profile, the brickmould design and Decorum® by Simonton color, hardware and grid options make it the ultimate patio door for your home.

**The Patio Door that lives up to our windows.**

**Simulated Divided Lites**
Crafted of durable PVC, Simulated Divided Lites are located on the interior and exterior of the home and provide the appearance and dimension of individual panes of glass.

**Flat Casing**
An optional Flat Casing surround provides a stately, elegant look.

**Brickmould/J-channel**
The available brickmould/J-channel is designed for homes that contain brick, siding, or both.

**Exterior Colors**
- Brick
- Bronze
- Chocolate
- Cream
- Driftwood
- Pine
- Tan
The Brickmould 600 Patio Door features a broad expanse of glass for a clean, unobstructed view.

**Interior Colors**

A white interior is standard. Or, choose from optional Driftwood, light woodgrain and dark woodgrain.

**Sliding Door Configurations**

Expand your viewing area even more by adding **Side Lites** to the Brickmould 600 Patio Door.

An optional **Transom** window, mulled above the Brickmould 600 Patio Door, is the perfect way to allow in even more sunlight.

*Exterior colors are not available with a Driftwood interior.*
The Brickmould 300 Series
The perfect balance of beauty and value.

Simonton ProFinish® Brickmould 300 series combines classic beauty, advanced features and solid value. A multi-tiered profile, available Flat Casing surround and optional Simulated Divided Lites provide a classic appearance, while premium vinyl construction requires virtually no maintenance. And Brickmould 300 windows are backed by an impressive warranty.

Comforting Energy Efficiency

Saving energy is more important than ever. That’s why Brickmould 300 windows are designed to deliver impressive thermal performance all year long. Brickmould 300 windows are crafted of premium vinyl, which is an excellent insulator. Sealed air pockets within the profile provide an effective thermal barrier.

Warm Edge Technology

Standard on Brickmould 300 windows is the Intercept® Spacer System, featuring a U-channel design that minimizes condensation and keeps glass surfaces warmer for improved thermal efficiency.

For maximum energy efficiency and dependability, Brickmould 300 windows are available with the Supercept™ spacer, which combines a U-channel design with the strength of a stainless steel alloy.

Low E Glass

ProSolar® Low E glass with Argon gas is optional on Brickmould 300 windows. In summer, Low E deflects heat. In winter, Low E helps retain warmed air.

ProSolar® Shade is an advanced, spectrally selective glass that features a unique formula for maximum insulation. This impressive glass offers the ultimate in solar heat control, fading protection, visibility and energy savings.

ProFinish Brickmould 300 windows can be ordered to meet ENERGY STAR® guidelines. Select a regionally specific Simonton ENERGY STAR® glass package, designed to provide maximum efficiency and comfort in all regions of the country.
Create your **Brickmould 300** window.

1 Select your **operating style**.

**Which style are you?**

Brickmould 300 windows allow you to choose the styles that will complement your home and lifestyle perfectly. Whether it’s the elegant simplicity of a Single Hung, the functionality of a 3-lite Slider or the flair of a Geometric window, you’ll appreciate the freedom of choice Simonton provides.

The optional **Flat Casing** surround suggests the appearance of a traditional wood window.
Consider a **unique** configuration.

Imagine the possibilities.

With Brickmould 300 series, different styles can be mulled together for unique configurations. Imagine a wall of windows created by mulling several Single Hung windows. Or an oversized picture window crowned with a Geometric. The possibilities are virtually endless.

Available on Brickmould 300 Single Hung windows, the **Window Opening Control Device** (WOCD) is a self-activating vent latch that limits the extent a window can be opened. It helps increase safety against accidental falls, while allowing quick egress in the event of an emergency.
Imagine the possibilities.
We make the windows. You make them yours.

Accentuate your home’s curb appeal by selecting unique glass and grid options. Both flat and sculptured grids are available, as well as Simulated Divided Lites that provide the look of individual glass panes.

**Between-the-glass Grids**

- 5/8" Flat
- 3/4" Sculptured
- 1" Sculptured
- Brass

**Simulated Divided Lites**

Crafted of durable PVC, Simulated Divided Lites are located on the interior and exterior of your home and provide the appearance and dimension of individual glass panes.
