INCREASED PRIVACY & ENERGY EFFICIENCY.

INTRODUCING LAMINATED OBSCURE GLASS

• An opaque durable interlayer is sandwiched between two layers of glass to provide an obscured view

• Laminated glass increases security, sound control, UV protection and energy efficiency

• Available on the StormBreaker Plus® and ProFinish® Brickmould 600 with SafePoint® glass product lines

ENERGY STAR SOUTH

Laminated obscure glass coupled with optional ProSolar® Shade Low E glass meets ENERGY STAR® South criteria and delivers maximum efficiency, energy savings and optimum solar heat gain control.
