ProFinish Contractor Series

Outstanding quality. Delivered on time.
Designed to perform.

Offering virtually unlimited size and style options, Contractor windows offer the strength, weatherability and energy efficiency homeowners demand with the dependable delivery contractors need to keep a project on track. They are also backed by a Lifetime Limited Warranty for assuring peace of mind.

**LIFETIME LIMITED WARRANTY**

Lifetime Limited Warranty on vinyl and a 20-year Limited Warranty on hardware, screens and insulating glass unit.

**AAMA**

Every Simonton built ProFinish Contractor window is AAMA Gold certified, passing the industry’s toughest standards for thermal performance as well as air leakage, water infiltration and wind pressure.
Performance Features

Quality matters when you’re building a new home. And quality is what the Simonton ProFinish® Contractor series delivers. Each window is built to help protect homes from the elements, save energy and maintain interior comfort during any season.

Deluxe J-Channel simplifies installation with vinyl siding

Integral Nail Fin for quicker installation

Welded Frame and Sash for strength and easier handling

Triple-Chambered Compound Cut-Sill helps prevent bowing

Attractive Beveled Frame increases architectural character

Standard 3/4" Insulating Glass Unit with ProSolar Low-E glass, Argon gas and Intercept® spacer system enhance energy efficiency

10-Degree Sloped Sill moves rainwater away from the home

Flush-Mount Tilt latches release the sash to tilt in for easy in-home cleaning

Extruded Vinyl resists chipping, flaking and putting and retains its looks with virtually no maintenance

Overlapping, Interlocking Meeting Rail guards against weather infiltration

Constant Force Coil Spring Balance System is made from stainless steel for consistently smooth sash operation (Double Hung, Single Hung only)

Pivot Alignment System keeps the frame and sash in precise alignment, improving squareness and operation (Double Hung, Single Hung only)

FLEXIBLE INSTALLATION

Contractor windows have an integral J-channel and nail fin for new construction applications but can be ordered to accommodate replacement installations.

Simonton Contractor windows feature a standard 3/4" insulating glass unit with ProSolar® Low-E glass, an Argon gas fill and the Intercept® spacer system. Available options allow you to customize your glass to deliver maximum energy efficiency for wherever you live.

ProSolar Low-E Glass
- Standard glass helps keep warmth inside during winter months and deflect the sun’s heat and retain cooled air in summer
- Screens out up to 73% of ultraviolet (UV) rays that can cause interior fading

ProSolar Shade Low-E Glass
- Ideal for warmer climates that require help with solar control and interior cooling
- Superior insulating performance

ProSolar Sun Low-E Glass
- Perfect for cooler climates that require more help with heating
- Uses the sun’s warmth to increase comfort and reduce heating costs

Gas Fill
Standard Argon gas, which is six times denser than air, is sealed between the glass panes to increase insulation and reduce energy loss. Twelve times denser than air, optional Krypton gas can be chosen for maximum thermal efficiency.

Spacer Systems
The standard Intercept® spacer system has a U-channel design that keeps glass warmer and flexes and contracts for reduced seal failure.

The Supercept™ spacer system utilizes a stainless-steel alloy that offers increased durability and thermal efficiency.

Sound & Security
Choose durable double-strength glass for increased safety and sound control.

Increase Privacy
The textured pattern of obscure glass helps maximize privacy while allowing desirable sunlight inside.

Tinted Glass
Help control solar heat gain, reduce glare and visibility into your home with bronze or gray tinted glass.

Simonton offers regionally specific ENERGY STAR® glass packages designed to deliver optimal energy performance and comfort for all areas of the country.
Elevate Your Home’s Design.

From the windows you choose to the color, hardware and grilles, we have the styles & options that will enhance the architecture of your home. Combine multiple window styles to create a beautiful wall of windows or a unique configuration that will set your home apart.
