

Sunroom

WELCOME TO YOUR NEW FAVORITE ROOM.

WHY SIMONTON WINDOWS FOR YOUR SUNROOM?

- A sunroom built with Simonton windows offers a quiet, comfortable, energy-efficient haven you can use year-round.
- Simonton windows are remarkably durable and they're more affordable than acrylic.
- Simonton windows are easy to install in 2," 3" or 4" aluminum frames.
- Ordinary glass cleaner is all it takes to keep Simonton windows crystal clear.

A ROOM IS BORN.

Transform your porch, patio or other outdoor living space into an inviting, sun-filled room that you'll enjoy all year long. Simonton windows are the perfect choice for a sunroom that provides maximum enjoyment season after season. A generous selection of styles and sizes allows you to choose the windows that will complement your home beautifully.

Simonton ProFinish® Contractor Series

- **Premium vinyl construction** is virtually maintenance-free.
- A sleek, 2 7/8" **narrow frame** provides an attractive, streamlined appearance.
- An exclusive **Lap-Lok® meeting rail** overlaps and interlocks the sash to virtually eliminate air and water infiltration.
- The **extruded lift rail** is easy to grasp and remarkably durable.
- The **sloped sill design** forces water away from the window quickly.
- A **20-year Limited Warranty** covers screens, hardware and glass. Vinyl is covered by a **Lifetime Limited Warranty**.
- **Easy to install** in 2" or 3" aluminum frames.

Simonton Reflections® 5500 Series

- **Premium vinyl construction** requires virtually no maintenance.
- A classic 3 1/4" frame is as **durable** as it is beautiful.
- An exclusive **Lap-Lok® meeting rail** overlaps and interlocks the sash to virtually eliminate air and water infiltration.
- The **extruded pull stile** is easy to grasp and won't loosen or break off over time.
- A **Double Lifetime Limited Warranty** includes vinyl, hardware, screens and glass.
- **Easy to install** in 3" or 4" aluminum frames.

ProSolar® Low E glass with an Argon gas fill provides great energy efficiency while helping to retain cooled air in warmer months.

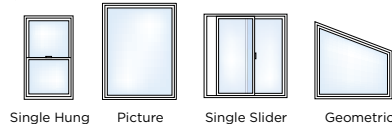

Our most advanced Low E glass, optional

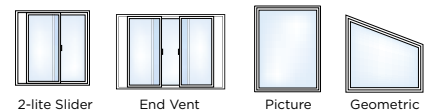

ProSolar® Shade is a spectrally selective glass that blocks damaging UV rays while allowing desirable light into the home. The unique formula with three layers of silver helps provide solar heat control, fade protection, visibility and energy savings.
