

Reflections[®] 5500 Inspiration Guide

Beautifully Crafted.
Innovative by Design.

With Simonton® you're not only getting the ideal window for you and your home, you're also getting the peace of mind that comes from more than 70 years of experience.

Quality by design. Superior by reputation.

Throughout the years, Simonton has developed innovative, energy-efficient solutions that homeowners have come to trust. Today, our legacy of customer satisfaction is second to none as award-winning Simonton windows and doors are continually recognized for their quality—including a near 5-star Reflections® 5500 online customer rating. In addition, custom-built Reflections 5500 windows deliver high-performance energy efficiency and offer a host of designer options to enhance your unique style. Simonton built windows and doors are tested to the demanding AAMA Gold Label Certification Program for product excellence and are covered by an industry-leading Lifetime Limited Warranty giving you confidence that Simonton Reflections windows are an excellent investment for your home.

Our goal is to make the process of selecting the ideal window easy. The possibilities are endless, and that's why we're here to help you cut through the clutter with five easy steps.

1

Discover Simonton Quality & Durability:

Built to last and recognized for quality, Simonton Reflections windows and doors are designed, manufactured and tested to deliver long-lasting performance for your home.

2

Choose Your Operating Style:

A wide variety of window and door styles provide functional options that are both appealing and innovative. Combine different styles for personalized design and enhanced curb appeal.

3

Learn About Your Glass Options:

The Reflections series features standard energy-efficient glass and offers high-performance glass options that deliver maximum efficiency, sound reduction, privacy, safety and security.

4

Select Your Design Options:

Choose from a portfolio of popular exterior colors, interior colors, rich woodgrain laminates and custom hardware finishes, to create a custom window design that fits your décor.

5

Choose Your Grille Profile & Pattern:

Highlight the architectural design of your home with an assortment of grille profiles in standard and custom patterns.

DISCOVER SIMONTON QUALITY & DURABILITY

Our standards are just as high as yours. Each Reflections® 5500 window and door represents an unparalleled attention to detail and craftsmanship for optimal performance. They're manufactured to the toughest standards in the industry and backed by more than 70 years of engineering and innovation to ensure that the products you put in your home are durable and hassle-free.

Innovation that Performs

Reflections 5500 windows and doors are precision engineered to open and close effortlessly for the life of the window, protect your home from the elements and provide interior comfort during any season.

Premium Vinyl Construction

Simonton first-generation vinyl uses the best raw materials for a durable, thermal efficient product that withstands harsh weather conditions. The color of the vinyl is integrated throughout, so the frame and sash are virtually maintenance-free and will never require painting like wood windows.

Custom Made for your Home

Reflections 5500 windows and doors are custom built to the exact size and specifications for your home renovation project to ensure proper installation and high performance.

AAMA Gold Certification

The AAMA Gold Label on Simonton built windows and doors verifies Reflections 5500 products are manufactured to the industry-leading AAMA Gold Certification Program. This quality assurance testing delivers durable, weather-resistant and energy-efficient products for your home. Learn more at simonton.com/aama-gold.

A Warranty Built to Match the Windows & Doors it Protects

The Reflections 5500 series features a Double-Lifetime Limited Warranty that covers vinyl, hardware, screens and glass units. The warranty is also transferable to the next homeowner for extended value. Find out more at simonton.com/lifetime-warranty.

Customer Testimonial:

"Love our new windows and doors.

*We replaced all of the windows and doors in our home!
Warranty looks to be amazing!"*

Florida Homeowner

CHOOSE YOUR OPERATING STYLE

You can choose from a variety of window shapes and operating styles to complement any room in your home. Whether you want a classic Double Hung or something more modern, Reflections 5500 is the right choice for you.

Double Hung

For a timeless look, the Double Hung is a popular choice for most home renovation projects. Both sash on Double Hung windows slide up and down vertically, and tilt in for easy cleaning from inside the home.

Slider

Slider windows glide horizontally from side to side. Available in a 2- or 3-lite configuration, 3-lite Sliders have a fixed center window with operable end vents. They are perfect for replacing large Picture windows to gain ventilation.

Picture

Offering an expansive, unhindered view, a Picture window is one of the most weather resistant styles available and are fixed – with no movable sash. They are ideal for large or small areas where daylight is desired.

Casement

Features a hinged sash that easily opens outward with a turn of a handle. Casements are the most energy-efficient style available, offering maximum ventilation and when opened fully can be cleaned from the interior.

Awning

Hinged at the top, the Awning window opens outward with a simple turn of a crank handle and can provide fresh air even when it's raining.

Geometric

Available in a variety of circular, arched and linear shapes, Geometric windows can provide a unique, customized look to any home. The architectural shapes highlight both contemporary and traditional homes.

Customer Testimonial:

"I would buy this product again and I did!"

I purchased the Reflections 5500 series 20 years ago, moved and immediately ordered the same line for our new home. Warranty claims are above reproach."

Colorado Homeowner

Garden

The unique dimension of a Garden Window can bring a little bit of the outdoors in year-round and is the perfect place to showcase collectibles and plants, while side windows open for ventilation.

Bow

A Bow window adds unique style to your home with windows mullied at 10-degree angles in 3-, 4- or 5-unit designs, which creates a rounded, more circular appearance than a bay.

Bay

Add interior and exterior dimension with the addition of a Bay window. Available in either 30- or 45-degree angles, the dramatic look of a Bay creates a special nook and adds dimension to any room.

Patio Door

Redefine your living space with an Inovo® sliding patio door. Large glass door panels open up a room with more natural light and allow easy access to the outside with a lifetime of smooth operation.

Garden Door

Create an elegant entryway with the classic styling of a Garden Door. One or both door panels are available in center-hinge and French-hinge styles that swing in or out to accommodate your home.

Simonton's My House is your online window and door idea book! Use Simonton.com to gather the images of the window and door styles, color, hardware and grille options that inspire you. Start to imagine today at simonton.com/my-house.

Consider a unique configuration

The possibilities are virtually unlimited when you combine Reflections 5500 windows and doors. Mulled configurations can create a beautiful wall of windows or a unique arrangement that will set your home apart.

3

LEARN ABOUT YOUR GLASS OPTIONS

For the ultimate in energy-saving efficiency, Simonton Reflections 5500 windows and doors are designed to deliver thermal performance and a comfortable home through every season. By choosing Reflections 5500 you're not only helping to reduce your heating and cooling costs; you're also keeping outdoor elements in their place year round. Additional glass options enhance security, acoustics, privacy and fade protection.

Customer Testimonial:

"Highly recommend."

"Our new Simonton Windows are amazing. The effect of the new windows was immediate. Not only is the temperature in my office and entire home considerably more comfortable and stable, we've already received compliments from our neighbors on the nice look."

Florida Homeowner

In summer, Low E
deflects heat.

In winter, Low E helps
retain warmed air.

Energy Savings & Interior Comfort

The Reflections 5500 series has a standard ¾" insulating glass unit, with ProSolar® Low-E glass and an Argon gas fill. Customize your glass package to optimize energy-efficiency, comfort and performance for your home and where you live.

Gas Fill

Standard Argon gas, which is six times denser than air, is sealed between the glass panes to increase insulation and reduce energy loss. Twelve times denser than air, optional Krypton gas can be chosen for maximum thermal efficiency.

Spacer Systems

The standard Intercept® spacer system has a U-channel design that keeps glass warmer and flexes and contracts for reduced seal failure. The Supercept™ spacer system utilizes a stainless-steel alloy that offers increased durability and thermal efficiency.

The non-metallic foam Super Spacer® is non-conductive and increases energy efficiency by helping provide an airtight seal.

Sound & Security

Laminated glass consists of a durable interlayer sealed between two layers of glass that resists forced entry, significantly diminishes unwanted sound and deflects up to 99% of damaging ultraviolet (UV) rays that can cause interior fading.

Triple Pane Glass

Optional 1" triple-pane insulating glass unit contains three panes of double-strength glass that create two separate air spaces in the I.G. unit for optimal energy performance and comfort.

Double-strength Glass

Thicker, double-strength glass is break-resistant and offers increased sound control.

Increased Privacy

Obscure glass has a textured pattern to maximize your privacy while still allowing natural light inside.

Tinted Glass

Help control solar heat gain, reduce glare and visibility into your home with bronze or gray tinted glass.

Safety Glass

Heat-strengthened tempered glass increases safety because it is harder to break through than regular glass and safely breaks into pebbles.

**Most Efficient
2020**
www.energystar.gov

Select Reflections 5500 window styles with triple-pane glass have been recognized as Most Efficient by ENERGY STAR® in 2020. Visit simonton.com/most-efficient for info.

Customer Testimonial:

"A huge improvement in every way.

The new windows look beautiful, have already warmed up our house, and are so much easier to operate and keep clean."

Virginia Homeowner

Customer Testimonial:

"Excellent windows.

My 35 new Simonton windows did not disappoint! My house is quieter, warmer and these windows are so beautiful!"

Georgia Homeowner

With Simonton, the Quality is in the Details

Each Reflections 5500 feature delivers superior performance and lasting durability.

Customer Testimonial:

"Amazing quality.

We love our new windows! Our house is so quiet now and the quality of these windows is top notch."

North Carolina Homeowner

Simonton offers regionally specific ENERGY STAR® glass packages designed to deliver optimal energy performance and comfort for all areas of the country. According to energystar.gov, ENERGY STAR certified windows can reduce energy bills by an average of 12 percent nationwide.*

- A Perfect Match**
Beveled exterior design coordinates with any style of home.
- B Durable Construction**
Fusion-welded construction bonds each corner together to create a rigid, one-piece frame that offers reliable strength and durability.
- C Weatherability**
Our innovative Lap-Lok® meeting rail overlaps and interlocks the sash to create a tight seal that virtually eliminates air and water infiltration.
- D Water Barrier**
Our exclusive triple-stepped, sloped Simonton Sill® forces water away from the window more quickly than flat, conventional sills to help protect your home from water infiltration, even in heavy rain.
- E Trouble-free Cleaning**
Operable sash that tilt in and lift out allow you to clean both sides of the window from inside your home.
- F Easy to Open**
A contoured lift rail is molded into the sash to provide lifetime durability.
- G Dependable Performance**
A stainless steel constant force coil spring balance system, allows you to easily move the window sash to any desired position, even after years of use.
- H Superior Security**
Dual, low-profile, color-matched cam locks secure the window tightly for peace of mind.
- I Safety Latches**
Dual Air Loks™ allow for partial ventilation without opening the sash to its fullest extent.

*Ranges are based on the average savings among homes in modeled cities. Actual savings will vary based on local climate conditions, utility rates, and individual home characteristics.
