

MULTI-SLIDE VINYL PATIO DOORS

See Your Home in a Whole New Light.™

6-PANEL BI-PART DOOR
White with a color-matched handle

Impressive Inside & Out

Simonton® windows and doors present a fresh perspective on your home—and all the moments that matter most to you.

Our commitment to quality begins with manufacturing: Our premium vinyl products are proudly crafted in the USA to deliver decades of efficient thermal performance—plus, long-lasting durability and effortless ease of use no other material or manufacturer can match.

Every day, we design award-winning windows and doors to satisfy a simple purpose: to brighten and beautify your home, and to enhance your comfort and peace of mind for generations to come.

Thoughtful & Intentional Design.

Impeccably built for lasting beauty and enhanced performance, MaxView™ multi-slide vinyl patio doors from Simonton® let you blur the lines between inside and out to give any space a fresh new outlook. Designed to expand a home's view while defending it from the elements, MaxView patio doors are built in our cutting-edge US manufacturing plant, which uses robotics to ensure unrivaled precision. They are durable, beautiful, and protective, with an array of modern features.

SMOOTH & QUIET GLIDE

Our WhisperGlide™ system includes heat-strengthened rolling tracks with stainless steel caps for smooth, quiet operation, along with a weathertight seal design to virtually eliminate drafts and noise.

CONVENIENT ALIGNMENT

Low-maintenance ongoing care is enhanced with AdjustAssist™ self-leveling rollers that can be effortlessly aligned with just the turn of a screw, providing a clear view for years to come.

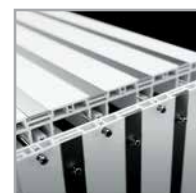

HIGH-PERFORMANCE DESIGN

The integrated T-lock design securely holds the door panel in place, even in high winds. The design helps meet high-performance ratings and the most stringent building codes, including Missile D and HVHZ (High Velocity Hurricane Zone), for coastal impact resistance.*

SAFE & SECURE

For peace of mind, our dual-point locks have two points of engagement for enhanced security. The stainless-steel lock components are strong and durable even in harsh climates.

LONG-LASTING BEAUTY

Premium vinyl delivers exceptional durability and thermal efficiency. It withstands harsh weather conditions and does not require the upkeep of wood or aluminum doors.

HURRICANE PROTECTION

Protect your home from hurricane-force winds and flying debris with optional coastal impact-resistant glass and reinforced profiles. Select sizes meet rigorous building codes including Missile D and HVHZ coastal impact zone certifications.*

Energy Efficiency & Comfort.

The Simonton MaxView™ multi-slide vinyl patio doors are constructed of premium vinyl that provides excellent insulation along with an energy-efficient insulating glass unit. Available glass options enhance with added security, acoustics, storm protection, privacy, fade protection and regional energy efficiency.

LOW-E GLASS

- ✓ Standard **ProSolar® Low-E Glass** helps keep warm air in during the winter months. In summer, it helps deflect external heat and retains cooled air.

- + **ProSolar® Sun Low-E Glass** lets in the sun's warming rays while blocking external heat loss, helping to keep homes warm in cooler climates that require more energy to heat.

- + **ProSolar® Shade Low-E Glass** offers superior solar control and insulating performance, making it ideal for warmer climates with more intensive interior cooling needs.

- + **ProSolar® Shade Plus Low-E Glass** offers exceptional solar control and insulating performance, making it ideal for warmer climates with more intensive interior cooling needs that also reduces heat loss in cooler months. Lightly tinted design allows visible light inside while reducing glare.

- + **PLUS4** is an interior surface Low-E glass combined with our ProSolar glass packages. Energy-saving PLUS4 reflects heat back into the home, maintaining interior warmth and providing superior insulation to help keep your living spaces more comfortable in colder climates.

KEY

- ✓ – Standard
- + – Optional

Consult your Simonton representative for available features and options.

- ✓ **SPACER SYSTEM**
The non-metallic foam **Super Spacer®** is non-conductive and virtually eliminates temperature transfer.

- ✓ **GAS FILL**
Standard **Argon gas** (six times denser than air) is sealed between the glass panes to increase insulation and reduce energy loss.

- + **TRIPLE-PANE GLASS**
Three panes of double-strength glass create two separate air spaces for optimal thermal performance and interior comfort.

- + **SOUND & SECURITY GLASS**
Laminated glass consists of a durable interlayer sealed between two layers of glass that withstands forced entry, significantly reduces unwanted sound and deflects up to 99% of damaging ultraviolet (UV) rays that cause interior fading.

- + **TURTLE GLASS**
Turtle Glass options deliver superior energy efficiency and glare resistance, meeting turtle code requirements by only allowing 40% of visible light to be projected through the glass to the shore.

- + **OBSCURED GLASS**
Obscured glass has a textured pattern to maximize privacy while still allowing ample natural light into your home.

- + **TINTED GLASS**
Bronze or gray tinted glass helps control solar heat gain and reduce glare and visibility into your home.

- + **ENERGY STAR®**
Simonton offers optional region-specific ENERGY STAR glass packages designed to deliver optimal energy performance and comfort in any climate.

Highly Configurable. Completely Transformative.

Connecting your home from the inside out is easier than ever with our unique configurations and innovative design choice that allow for easy opening and closing. Unlike hinged doors than can create obstructions and the need to move furniture or decor, our innovative design takes the hassle out of blurring the lines between

your living room and the backyard. And with a variety of interior and exterior color options and various panel selections, you can punctuate your door with a finish that matches your preference. Our doors open up the possibilities of enjoying the best of both worlds.

CONFIGURATIONS

Our doors come in 1-, 2-, 3-, 4- and 6-panel options in the following configurations:

BYPASS

Panels can slide from one side to the other or can open from either end. When fully open, the panels stack at one side.

POCKET

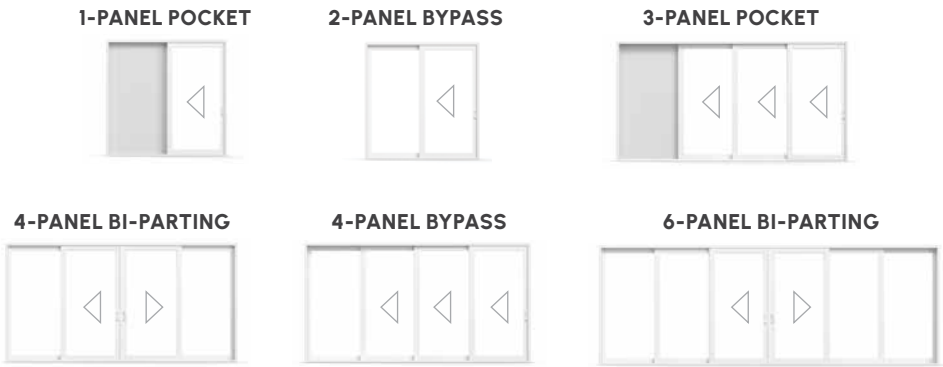

All panels slide and nest into a wall pocket, maximizing the finished opening.

BI-PART

Panels open from the center and slide to one side or the other. Door can be partially or fully open, with panels stacking at their respective side.

EXAMPLE PANEL AND PRODUCT CONFIGURATIONS

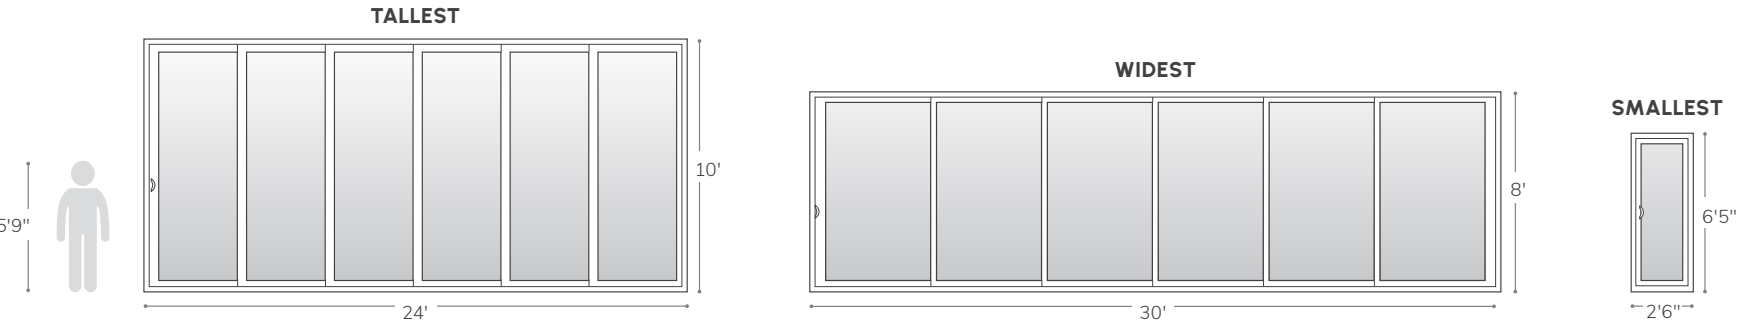

See chart to the right for all combinations.

SIZES

Our doors come in a variety of standard sizes, as well as custom sizes up to 10' in height or 30' in width.

DOOR HEIGHT	1-PANEL				2-PANEL				3-PANEL				4-PANEL				6-PANEL

Details Matter.

COLORS
Select from stylish exterior and interior color options from classic neutrals to contemporary black and dark bronze to provide a dramatic and contrasting architectural statement. Vinyl colors are molded throughout the profile for long-lasting beauty and weather resistance. High-performance coextrusion technology bonds a layer of the exterior color onto the vinyl profile making the color integral to the door for enhanced durability.
