MULTI-SLIDE VINYL PATIO DOORS

 **SIMONTON**[®]
WINDOWS & DOORS
MAX VIEW™

6-PANEL BI-PART DOOR IN WHITE

Open Up Your Space to Refreshing Opportunities.

Bringing the outdoors in never goes out of style. With MaxView™ multi-slide vinyl patio doors from Simonton®, you can achieve the look you want with incredible panoramic views that allow more natural light in. Impeccably built for lasting beauty and enhanced performance, MaxView doors let you blur the lines between inside and out to give any space a fresh new outlook. And with a wide variety of sizes and styles, you can customize the door to meet your renovation needs and budget.

It Transforms.

MaxView™ patio doors don't just expand your view — they enhance your overall well-being with the benefits of natural light and fresh air. Enjoy opening up your home to fresh possibilities with transitional living spaces that transform your space no matter what your style.

It Upgrades.

With our seemingly endless combinations of sizes and styles, you can bring high-quality engineering and high-impact design home to stay, all at a price that finally makes the outlook you love a luxury you can attain.

It Protects.

Impeccably designed for lasting beauty and enhanced performance with premium features that defend from the elements and intruders alike, MaxView protects your home and gives you peace of mind.

6-PANEL BI-PART DOOR IN WHITE

Thoughtful & Intentional Design.

The right patio door can both expand a home's view and keep it safe. Our doors are meticulously designed to transform a home's exterior and interior all at once. Built in our cutting-edge US manufacturing plant that uses robotics to ensure unrivaled precision, MaxView™ patio doors are durable, beautiful and protective with an array of modern features.

WHISPERGLIDE™ FOR A SMOOTHER AND QUIETER GLIDE

Thanks to a unique weathertight seal, you'll enjoy an effortless glide that virtually eliminates drafts and noise.

T-SHAPED REINFORCEMENT FOR HIGH PERFORMANCE

Unique features such as an integrated T-lock design help achieve high performance ratings, including Missile D level of impact resistance and HVHZ certifications, and meet the most stringent building codes, all while maintaining the door's clean aesthetic.

SUPER SPACER®

Award-winning glazing technology reduces condensation and increases energy efficiency with a longer-lasting, more durable glass seal, providing a clear view for years to come.

ENERGY EFFICIENT

Our Low-E glass blocks harmful UV rays, preventing fading and sun damage to expensive furniture, art and rugs, and the doors can even be configured to meet ENERGY STAR® certification.

ADJUSTASSIST™ FOR EASE OF OPERATION

Low-maintenance ongoing care is further enhanced with self-leveling rollers that adjust perfectly into place with just the turn of a screw.

DURABLE VINYL CONSTRUCTION

Take advantage of the classic beauty that rivals wood and aluminum more affordably and durably, without the upkeep.

IMPACT GLASS OPTIONS FOR ADDED SAFETY AND SECURITY

Engineered to combat intruders and harsh weather conditions, including hurricanes, our impact glass options help protect your home, your family and everything inside.

Highly Configurable. Completely Transformative.

Connecting your home from the inside out is easier than ever with our unique configurations and innovative design choice that allow for easy opening and closing. Unlike hinged doors that can create obstructions and the need to move furniture or decor, our innovative design takes the hassle out of blurring the lines between

your living room and the backyard. And with a variety of interior and exterior color options and various panel selections, you can punctuate your door with a finish that matches your preference. Our doors open up the possibilities of enjoying the best of both worlds.

CONFIGURATIONS

Our doors come in 1-, 2-, 3-, 4- and 6-panel options in the following configurations:

BYPASS

Panels can slide from one side to the other or can open from either end. When fully open, the panels stack at one side.

POCKET

All panels slide and nest into a wall pocket, maximizing the finished opening.

BI-PART

Panels open from the center and slide to one side or the other. Door can be partially or fully open, with panels stacking at their respective side.

EXAMPLE PANEL AND PRODUCT CONFIGURATIONS

See chart to the right for all combinations.

Details Matter.

When it comes to revamping a home, details matter. The right patio door can help your dream home come to life. That's why we've designed our doors with optimized glass options to lower energy bills, raise comfort levels and help protect against harsh weather conditions such as hurricanes. Our Low-E glass blocks harmful UV rays, allowing your homeowners to experience optimal thermal performance while helping protect from sun damage. Our multi-slide vinyl patio doors are also Florida approved* to meet stringent impact requirements and, with custom sizes up to 30 feet wide and 10 feet tall, can be configured to meet any ENERGY STAR® climate zone for added customization.

**MaxView™ doors can
be configured to meet
ENERGY STAR certification
in all climate zones.**
